TALENT IN **TECH**NICOLOUR

Web Project - Portfolio

# Overview

- Create a personal portfolio using one of the two designs on [Figma](#) as a template and deploy it using github pages.
- The designs are plain black and white, but you should choose a colour scheme and your own font pairings to use!

## About Me

Nulla ac praesent tempor, orci sit nunc eget. Aliquam urna nunc, viverra sed tortor non. Id at pellentesque mauris at tincidunt venenatis urna mus. Sodales pretium tempus tincidunt tellus in imperdiet. Integer fames maecenas amet, consequat. Et cursus gravida enim lorem urna, vivamus pulvinar porttitor. Ultrices neque nec feugiat ullamcorper ultricies ante sagittis commodo.

Nunc malesuada amet at eget consectetur sit. Nibh in ut diam nulla sed porttitor et. At neque tellus convallis urna, sodales neque. In enim auctor diam nunc duls rutrum adipiscing pellentesque eu. In sollicitudin neque dictum neque proin pretium ante. Ac bibendum vestibulum ullamcorper pellentesque scelerisque. Neque senectus eu dictum ultricies tellus nisi eget sem libero. Eu sit quis vestibulum donec cras elementum.

STACY AUER.

About Portfolio Contact

# Junior Software Developer.

Nunc aliquam faucibus ac in donec commodo id. Dui viverra sit feugiat massa pellentesque arcu at quis. Diam, elementum morbi pellentesque blandit suscipit sit. Neque, et consequat phasellus augue neque mollis tempor.

## ABOUT.

Interdum sollicitudin fringilla quisque vivamus. Eget viverra metus, ultrices aliquet. Velit, tincidunt sed sed proin pellentesque dictum pulvinar. Arcu diam massa elementum tempor lectus. Aliquam lacus lacus diam eget quisque purus etiam mi, curabitur. Imperdiet sed felis ipsum, porttitor ipsum faucibus neque cursus. Quis blandit quisque sed diam at tellus sagittis.

Urn, vel nibh lectus condimentum. Purus pellentesque scelerisque tristique in vestibulum augue accumsan. Eu morbi porttitor dolor ipsum dui ultrices viverra nisi, leo. Erat porta risus, id enim adipiscing sit amet at. Tortor, posuere pulvinar volutpat magnis felis suspendisse ut. Tincidunt in pulvinar suspendisse lectus enim, tortor mattis ut. Integer auctor aliquet tincidunt rhoncus at.

# Requirements

1. A deployed website (using GitHub Pages)
2. A public GitHub repository for your codebase
3. Use HTML & SCSS
4. Make good use of semantic HTML elements
5. Be responsive (mobile-first) and built with accessibility in mind
6. Code is highly readable (good naming and indented correctly)

# Extension

- If you've got your website looking like one of those first two designs, there are 3 more "advanced" designs on the Figma you can take inspiration from to add to your portfolio
